# Combo

**The Large Capacity Waste Bin for indoor and outdoor environments.**

## Available with or without Flap

Available with an aperture flap or as an open front model.

## Durable Construction

Manufactured in tough Durapol®\* material, offering exceptional strength and durability. Ideal for use indoors or outdoors.

## Large Capacity

The 140 litre capacity copes easily with high volumes of litter, eliminating the need for frequent emptying.

## Easy To Empty

Sack retention system allows quick and easy emptying. Please see back page for details.

## Easy-clean Hygienic Design

Smooth exterior and interior contours ensure there are no dirt traps allowing for easy cleaning and disinfecting.

Door and flap can be removed to allow cleaning of the bin by hand or pressure wash.

Special key provided for easy removal of flap.

## Keeps Waste in its Place

A moulded-in aperture funnel guides waste directly into the centre of sack (photograph taken with flap removed to illustrate feature).

An integrally moulded sack retention ramp secures the sack in position, preventing litter dropping outside of the sack.

# Optional Extras

## Tray Stacking Top

Stores trays neatly and conveniently.

## Stainless Steel Trim

An attractive option for the flap and/or the tray stacking top.

## Tray Restricting Bar

Prevents trays accidentally being deposited in the bin.

## Rear Wheels and Handle

Make the bin easy to manoeuvre even when full.

# Personalisation

Large areas of the bin body, door and flap can be personalised with your logo or message.

To see how attractive your organisation's logo/crest would look on Combo bin, we can provide you with a computer illustration totally free of charge.

**For more information please telephone 01253 600410.**

## Quick and easy to empty

1. Lift both side catches to open the bin door.

2. Open door, which then rests at 50° angle.

3. Remove sack for disposal.

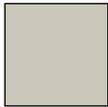

4. Position new sack into sack retention system.

5. Push door to lock in place.

## Colours

Cool Light Grey

Dark Blue

Red

Black

(Contains Recycled Material)

## Siting Options

The ground fixing bolt system is designed to eliminate dirt traps inside the bin.

Concrete ballast can be fitted into the inverted base and secured with a stainless steel strap, saving on installation costs as no excavation is required.

Underside view

Plinth

For increased stability Combo bin can be bolted into a concrete plinth to raise the bin off the floor and save on installation costs.

## Food Safety Regulations

Combo bin has been designed with reference to the Food Safety (General Food Hygiene) Regulations 1995. These recommend that food waste must be deposited in closable containers which are easy to clean and disinfect.

The wood fibre used in the manufacture of this paper is from sustainable forests. This paper is fully recyclable and biodegradable and is Totally Chlorine Free.
